WORK EXPERIENCE

Front End Web Developer

Audioreel.ca, Canada | December 2019 - to present

- Collaborated with a cross-functional team of Project Manager, Product Designer using Agile Methodologies to design and develop a fully functional e-commerce website that sells a variety of audio devices.
- Tasked with the responsibility of converting the Figma design by developing the website from ground up using React, ContextAPI, GraphQL, SCSS, Redux for the state management, Firebase for user authentication and integrated Stripe for payment.
- Improved the performance of the website by optimizing assets.

Customer Service and Sales Officer

Rogers Media (TSC), Canada | May 2019 - November 2019

- Increased sales by 60% by way of upselling. Also, increased customer retention rate by 30%.
- Trained and mentored over 20 customer service new hires.

Front End Developer

Ikeja Electric Plc, Nigeria | January 2018 - April 2019

- Worked with the team using JavaScript and its libraries to develop and ship new features before the required deadline.
- Recommended solutions for a streamlined, user friendly interface with the design team.
- Fixed accessibility issues.
- Fixed bugs to improve overall application performance leading to over 25% increase in revenue.
- Significantly improved page loading speed by lazy loading assets and deferring API calls which resulted in boosting the conversion rate by 80%.

Technical Support Analyst

Ikeja Electric Plc, Nigeria | January 2016 - December 2017

- Increased end-users' productivity by providing technical assistance.
- Increased company revenue by decreasing downtime by 40%.
- Resolved incidents reports by working with the support groups, such as the network operations.
